The Resurrection Archive: The Path of Earth Service (2006–2026)

Mission Statement:

This digital archive documents the completion of a 20-year cycle of Earth Service dedicated to Planetary Ascension. It stands as a permanent Time Capsule for humanity, bridging collective consciousness from the 2026 Milestone through the 2039 Arc and beyond.

The Six Pillars of the Archive:

This collection contains the Complete Works, each serving as a distinct frequency anchor for the New Earth:

Book of Wisdom — Divine Law and Mental Clarity

Book of Healing — The Heart of Compassion and 60 Distant Sessions

28 Powerful Reiki Attunements — Energetic Tools for Self-Mastery

Eternal Spirit — The Removal of Seals and Axiatonal Connection

The Path of Oneness — Integration of the 12 Rays and Unity Consciousness

Earth Gate (Fiction) — The Grounding Pillar and the Story of the City of Shamballa

The Path of the Initiate:

The journey within these archives unfolds through three stages of consciousness:

Awakening — The soul's realization of its divine nature, the initiation of the path, and the release of ego-density.

Service — A 20-year mission of grounding light, teaching, and active stewardship in support of planetary transition.

Resurrection — Final transfiguration into a sovereign being of light, dwelling within the higher frequencies of the City of Shamballa.

Sacred Archives- Six Books by Chris Comish:

These works are offered in service as channels of Divine Love and Light. Their true value is revealed when they align with Divine Will, awakening the individual's own Divine Love and Light.

Final Decree:

Having offered these six anchors to the world, the mission is complete. I now stand in Stillness, surrendering the fruits of this service to God's Will.

— Chris Comish
